

EASY LIQUIDS FLOWPHOS SZ

PRODUCT GUIDE

OVERVIEW

EASY Liquids FLOWPHOS SZ is a true liquid fertiliser which contains 100% water soluble nitrogen, phosphorus, sulphur and zinc, for application at planting in broad-acre or row crops and fertigated in horticultural crops. EASY Liquids FLOWPHOS SZ allows nutrients to be accurately and evenly placed in the required position, which is very important for phosphorus and zinc as they are very immobile in the soil. EASY Liquids are manufactured at our regionally located plants with the highest quality standards.

ANALYSIS

N				P	K	S	Ca	Mg	B	Cu	Fe	Mn	Mo	Zn	SG
Total N	Nitrate	Ammonium	Urea	Phosphorus	Potassium	Sulphur	Calcium	Magnesium	Boron	Copper	Iron	Manganese	Molybdenum	Zinc	
9.7				7	0.5	5.8								0.5	1.30

All nutrient content is shown in w/v.

USAGE RECOMMENDATIONS

CANOLA

Apply 40-80 L/ha banded in the seed furrow at planting/seeding. Can be applied either neat or diluted with 10-50 L/ha of water.

COTTON

Apply 40-80 L/ha banded in the seed furrow at planting. Can be applied either neat or diluted with 10-50 L/ha of water (based on 1m row spacing).

GRAIN LEGUMES - WINTER

Apply 40-80 L/ha banded in the seed furrow at planting. Can be applied either neat or diluted with 10-50 L/ha of water (based on 1m row spacing).

MAIZE

Apply 40-100 L/ha banded in the seed furrow at planting. Can be applied either neat or diluted with 10-50 L/ha of water (based on 1m row spacing).

SORGHUM

Apply 40-80 L/ha banded in the seed furrow at planting. Can be applied either neat or diluted with 10-50 L/ha of water (based on 1m row spacing).

WINTER CEREAL

Apply 40-80 L/ha banded in the seed furrow at planting/seeding. Can be applied either neat or diluted with 10-50 L/ha of water.
