

# EASY LIQUIDS N-FOL

## PRODUCT GUIDE

### OVERVIEW

EASY Liquids N-FOL is a formulated foliar liquid nitrogen product containing urea nitrogen, which can be safely applied to broadacre winter crops and summer crops. Foliar nitrogen is quickly utilised by actively growing plants and is not reliant on rainfall for plant uptake. EASY Liquids are manufactured at our regionally located plants with the highest quality standards.

### ANALYSIS

N		P	K	S	Ca	Mg	B	Cu	Fe	Mn	Mo	Zn	SG		
Total N	Nitrate	Ammonium	Urea	Phosphorus	Potassium	Sulphur	Calcium	Magnesium	Boron	Copper	Iron	Manganese	Molybdenum	Zinc	
24.0			24.0												1.12

All nutrient content is shown in w/v.

### USAGE RECOMMENDATIONS

#### CANOLA

Foliar apply 60-100 L/ha during rosette growth stage with standard nozzles. Can be applied neat or diluted with water.

#### COTTON

Foliar apply 30-40 L/ha from 4 leaf to mid boll filling. Add 100 mL/100 L of WETTER 1000. Can be applied neat or diluted with water. Water rate 30-80 L/ha.

#### MAIZE

Foliar apply 20-40 L/ha from 2 to 6 leaf growth stage with standard nozzles. Add 100 mL/100 L of WETTER 1000. Water rate 30-80 L/ha.

#### SORGHUM

Foliar apply 20-40 L/ha from 3 to 6 leaf growth stage with standard nozzles. Add 100 mL/100 L of WETTER 1000. Water rate 30-80 L/ha.

#### WINTER CEREAL

Apply 40-85 L/ha between stem elongation to early grain fill (GS Z31-Z70) with standard nozzles. Apply to actively growing crops not suffering from stress. Repeat as required. Can be applied neat or diluted with water.
